Students Sold Down the River

... (again!)

A most sincere abuse of democratic principles and individual rights has occurred within the students body. Last fall, a resolution of twelve persons, the executive of the six sports clubs then active within the University, was called together to draft a constitution for the Sports Association (as held under the newly adopted constitution of the U.S.C.I.). These persons took upon themselves to request University Council to recognize the Sports Association as a separate body, and that a D.O., be to the Sports Association should be invited to all students. These requests were granted.

This decision is opposed to the will of a large number of students, who were never consulted in the by doing so. Many students have been affected by this situation and many have been affected by the actions of the Sports Association.

These are times when individual liberties are in the greatest danger from totalitarianism and from the increasing repressive power of the government by a bureaucratic form of government. It is time to remember that the Freedom of speech, and the Freedom of the press, are the most important rights that must be jealously guarded or they will be lost.

In conclusion, it must be remembered that the University has a dual duty to perform. On the one hand, it must be a place where students can learn and develop, and on the other hand, it must be a place where students can have fun. Both of these duties must be performed in order for the University to be successful.

R. A.

Support for Student Hostels

Mr. MacDonald, Secretary of the Student Hostel Committee, has recently announced that the University will be able to provide more hostels for students. He said that the Committee has been working hard to ensure that all students have access to good quality hostels.

The University has been working closely with the local community to ensure that the new hostels are located in areas that are safe and convenient for students. The University has also been working with the local government to ensure that the new hostels are well maintained.

Editorial

The formation of the Sports Association was a noble process. Now, however, it seems that the University has decided to support the Sports Association in order to make sure that the students are satisfied with the arrangements made by the association.

With regard to the students' complaints, the University has decided to hold a meeting with the students to discuss their concerns. The University has also decided to provide more resources to the Sports Association in order to make sure that the students are satisfied with the arrangements made by the association.

The University has been working closely with the local community to ensure that the new hostels are located in areas that are safe and convenient for students. The University has also been working with the local government to ensure that the new hostels are well maintained.

The University has been working closely with the local community to ensure that the new hostels are located in areas that are safe and convenient for students. The University has also been working with the local government to ensure that the new hostels are well maintained.
He Says "No!"

In order to clear the minds of students of the University of Technology, I feel it my duty to announce the decision of the Interim Committee of the Sports Association to adopt a new dress code which will take effect on 1st of July.

The Committee was formed last year to consider the question of dress and conduct in the University, and it has now decided to introduce a new code which will be in effect from the next academic year.

The new code will require all students to wear the following:

1. A shirt with the University logo on the breast.
2. A tie with the University logo on it.
3. A skirt or trousers with the University logo embroidered.
4. A hat with the University logo on the brim.

Violators of this code will be subject to disciplinary action.

He Says "Yes!"

Gentlemen,

I believe that the 1952 Allied Effort of 20,000,000 with a possible amount of 30,000,000 will be carried out at all sites of the S.I.W. University of Technology. I would point out that the Allied Journalizes in the past have not been able to keep to this plan because of our inability to be in the same area at the same time. This plan will be in effect in the future in order to carry the requirement for the sale of the arms in various parts of the world.

IN THE BEGINNING....

The University authorities have released the following interpretation concerning future plans for student amenities and accommodation.

"Following the recent discussion on the future plans for student amenities and accommodation, representatives have been asked to submit proposals for new buildings as quickly as possible. It has been agreed that all proposals will be considered.

"It has been decided that two new residential buildings, of dimensions 12' x 60', will be built on the University campus. These buildings will be located adjacent to the main campus facilities and will provide for the needs of students and faculty members. The buildings will be constructed with the approval of the local authorities and will be ready for occupancy in the near future."
Australia's Colonial People

Happy Huntin's before us,
Happy hunts we know no more,
Silk on the fleece, no more,
Broken Hearts, walking till we die,
Curse the white-. curse the whites,
Why must it be-. why must it be?

MISCELLANEY POLICY
All contributions must be signed.
The contributor's name and school must accompany
each article or letter as evidence of good faith.
Unsigned articles may be taken on Editor's discretion.
The Editor will not necessarily agree with opinions expressed
in signed in printed articles; all opinions expressed in
letters to the Editor are solely at the discretion
of the Editor.

Letters should be addressed to the Editors.
Contributions, if typed, must be double-spaced
and enclosed in a separate envelope as an encumbrance.
The Editors may require a contributor to meet part of the cost
of any blocks which appear on unsolicited articles.

IN APPRECIATION
It is with appreciation that we acknowledge our debt to Australia's
aborigines from whom the name 'Thuranka' is borrowed. 'Thuranka'
represents the act of giving us.

We hope that this journal will be a messenger for all students and
that it will provide a forum for contact and being students
and teachers and the first time of 'Thuranka' should be dedicated
to the aborigines. -A.B.

THURANKA

NUSAUS GIVES US THE RUN-AROUND

On November 26th, 1952, the UTS.R Committee made the following
appeal to the National Union of Australian University Students.

"... The Interim Committee of the National Union of Australian University
Students (NUSAUS) recently discussed the possibilities of forming
a National Union of Australian Universities. The Union is the
representative body of university students and membership is
comprised of students from a variety of disciplines.

The main impetus for the formation of NUSAUS came from the
recommendation of the committee's report, published in May
1952. The report highlighted the need for a national student
organization that could speak on behalf of students across the
country. NUSAUS was established to do just that, providing a
platform for students to voice their concerns and work towards
improving the student experience.

NUSAUS is an excellent example of the power of collective action,
and its success is a testament to the dedication and hard work
of its members. Through its efforts, NUSAUS has been able to
achieve a wide range of goals, from advocating for better
living conditions to improving academic standards.

In conclusion, NUSAUS is a vital organization that plays a significant
role in the lives of university students across Australia. It
advocates for the rights of students and works to create a better
environment for all.

NUSAUS Office,
University of Sydney,
Mr. P. Pacey,
Hon. Secretary of UTSU,
C/- Union Rooms,
Mary Ann Street,
BROADWAY.

Dear Peter,

I have to hand your letter of November 26th, 1952, to the former
Secretary of NUSAUS, who is no longer a member of your Union with NUSAUS.

It seems to me that the main issue is the question of including
all students in the union, and the problem of how they can know
what the policies of the union are.

The policies of the union are not clearly defined, and
there are differences of opinion among the membership.

I believe that the union should be open to all students,
and that it should be run by the students themselves.

Sincerely,

G. Barlow

PRESIDENT.

As a result of this letter, it is evident that there were
certain disagreements between the members of the union,
and that there were differences in the opinions of the
various groups. It seems that there was a lack of
clear leadership and that there was no clear understanding
of the goals and objectives of the union.

I believe that the union should be open to all students,
and that it should be run by the students themselves.

Sincerely,

G. Barlow

PRESIDENT.
