To Union A.G.M. Lapses

Due presumably to apathy—not only on the part of the student body, as might be expected, but also of other Union members—the first Annual General Meeting, on May 11, of the University Union, was set for a quorum, only through the efforts of the nearly 500 members being required for the purpose.

The meeting lapsied technically, that is, for the Chairman, Mr. W. H. John (N), had not the opportunity of distributing the president of the Students' Union, Mr. John Nilsson, proposed that it might serve some purpose if the annual report could be distributed to, even though it could not be officially adopted. And very interesting indeed was the discussion which ensued.

In his report, Mr. Nilsson stated that “a decrease of the activities of the Union in the face of the high prices has been the natural result of the miner's strike, which has affected the University seriously, and has led to the reduction of the financial standing of the Union. The Union has been forced to cut down its activities, and the result has been a decrease in the number of members.

The Union has been forced to cut down its activities, and the result has been a decrease in the number of members. The Union has been forced to cut down its activities, and the result has been a decrease in the number of members.

The Union has been forced to cut down its activities, and the result has been a decrease in the number of members.

The Union has been forced to cut down its activities, and the result has been a decrease in the number of members.

The Union has been forced to cut down its activities, and the result has been a decrease in the number of members.
poisoned pens

Catholic Weekly

Send-Up

Dear Sir,

I was working on hearing myself the same old song from the "poisoned pens" and decided to make a public appeal. The Catholic Weekly has been a faithful friend for many years and I feel that it is time for us to come together and strengthen our bonds. I am sure that with your support, we can achieve great things. Thank you for your understanding and cooperation.

Yours sincerely,
Gerald Davey

Bully for Opuska!

Sir,

The idea of launching a film Society is a great one but there are some things that need to be considered before we proceed. Firstly, there are questions of financial stability, management, and governance. Secondly, the scope of the film society should be defined carefully. It is important to ensure that the society operates within the legal framework. Finally, it is essential to consider the audience and their preferences.

Yours sincerely,
[Name]

Union Regulations

It would appear that regulations for the operation of a Union are necessary but this must be done in a way that is acceptable to all members. It is important to consult with the students and seek their input.

Yours sincerely,
[Name]

Prostitution Of Tradition

Sir,

Despite the fact that your recently completed survey showed that thirteen out of the twenty participants expressed their views, the matter remains unresolved. The matter of prostitution in the public domain is a serious one and requires urgent attention.

Yours sincerely,
[Name]

"Damn history! Can't it bite me someplace else?"

Dear Mr Niland,

The Executive Committee of the Council has asked me to tell you that the University has received a letter from a student, complaining of a recent event in "Thursanka." The issue is being investigated by them as follows:

"The article in question is ridiculous, libellous, and entirely unprofessional and derogatory in its treatment of our University. The Council must not permit such matters to continue."

The article to which the complaint refers is "Thursanka," and I think the Council should appreciate a general assurance, if you feel inclined, that the Student Executive will do what it can in the future to improve the type of article out of "Thursanka."

Kind regards,
[Name]

Yours sincerely,
J. P. Bates, Vice-Chancellor

7

Thursanka, Thursday, June 7, 1962

It seems that the University political societies have been the target of a concerted effort by poisoned pens. It is alleged that these pens are being used to defame the reputation of the University. The Council is investigating the matter and will take appropriate action.
The Candidates:

ROB MILLER:
Active member of the Students Union, this candidate is a member of the University Union, where he has served on numerous boards, and is currently the President of the University Union. He is also a member of the University Senate, and represents the interests of students both to the University and to the wider community.

The University of Toronto:
- 1974-1975
- 1975-1976

KEN HAYLAN:
Active member of the University Union, where he has served on numerous boards, and is currently the President of the University Union. He is also a member of the University Senate, and represents the interests of students both to the University and to the wider community.

The University of Toronto:
- 1974-1975
- 1975-1976
you too, can wear a fig-leaf

As regular readers will have gathered by now, the "Melbourne Spy" has a habit of wrongly attributing ideas to others, even when those ideas are not theirs. A recent example of this is the claim that the "Melbourne Spy" is the source of the "fig-leaf" concept. However, this is not true, as the concept of wearing a fig-leaf as a symbol of modesty is ancient and has been used by many cultures throughout history, not just in the context of the Bible.

In the Bible, Adam and Eve were given fig-leaves to cover their nakedness after they had eaten the forbidden fruit from the tree of knowledge. The story is told in the book of Genesis, chapter 3, verses 7-24. The fig-leaf is an ancient symbol of modesty and is still used today as a symbol of modesty and modesty in certain cultures.

While the "Melbourne Spy" may have intended to use the fig-leaf as a symbol of modesty, it is important to note that this is not the correct usage. The concept of wearing a fig-leaf as a symbol of modesty is ancient and has been used by many cultures throughout history, not just in the context of the Bible.

In conclusion, while the "Melbourne Spy" may have intended to use the fig-leaf as a symbol of modesty, it is important to note that this is not the correct usage. The concept of wearing a fig-leaf as a symbol of modesty is ancient and has been used by many cultures throughout history, not just in the context of the Bible.
A tale of eating houses

The state of cotyledon and petiole germination, usually first seen four days after sowing, was invariably improved by adding a 'hot' compost. One investigator noted that 'the plants germinated' in contrast to 'the plants germinated in contrast to the control'.

Having been the only ones to test the effect of light, all students observed that 'as the light intensity increased, the rate of germination decreased'.

In section four, an overview of Culinary Arts outlines various dishes, both thick and creamy soups. These were included to help students adapt to different tastes and preferences.

In the case of Sydney University, the student union's strategy was to "engage" students through various events and activities, focusing on bringing students together.

In the interest of sustainability, the university decided to 'go green' by introducing waste reduction initiatives, such as recycling programs and reducing water usage.

The library continued to expand its resources, offering online databases and electronic journals that were accessible via the university's network.

The lecture series, regularly attended by students, featured guest lecturers from various fields, adding new perspectives and knowledge to the students' learning experience.

The university also emphasized the importance of student engagement and feedback, establishing a platform for students to provide input on their academic experience and course content.

What's Afoot?
morning

It's hard for me to adjust to weather
I'm still wearing my goddam summer clothes in tall
this morning, for instance, my legs were numb
(the cold produced some nice dreams
during night too)
I had just one blanket on the bed
suddenly winter's falling on us
like a bucket of ice
I'm not prepared
Or I go out dressed warm and the day is hot
I wish they would make up their mind
anyway, lying in bed in the morning, like this
morning I leave the radio nestled close to my head
(right in bed)
the Masterwork Hour (Carlo Chavez and
Hector Lobo)
I would call this the edge of a season
an academic: a period of transition
bless you all
I hope you don't have as much trouble as I do

John Fleck

afternoon

Asleep
you are a different person;
the chinahue-eyed
Modigliani long-hot-catlike you
relaxes
into a woman-shadowed girl,
warm, curled-up,
the soft sighs of your breath
issuing...

I stand
over your bed
—I want to gently embrace
your tiny perfect form,
kiss your forehead,
kiss your cheek
—yet I am afraid
of waking you.

Dan Propper

the hankering lion

the hankering green lion of spring roves
and through a vent in her velvet jeans
one black lace flower on her mesh panties
pecks me two dreams, strewn in the blue heat,
what she wants, who knows, but now she smiles,
she shuts eyes as her hand brushes my wrist,
so I tick my Seth Thomas wristwatch
under that plush flower.
she leaves it there, now on the oozing hill
oh I hear the flowers grow and the watch
use its little gold bands.

James Grady
