Save a Document	5
Viewing a Document	8
Viewing all Documents contained within a RAMS Container	9

Login Process

1. Go to the RAMS Web Application: <https://rams.unsw.edu.au>
2. The [UNSW Multi Factor Authentication](#) will ask to approve the connection when working remotely (from home).

Approve sign in request
Open your Microsoft Authenticator app and approve the request to sign in.
[I can't use my Microsoft Authenticator app right now](#)
[More information](#)

Open Microsoft Authenticator app to approve the connection

Refer to [UNSW Identity Manager](#) to reset your password.

3. The RAMS Web Application opens once the connection has been approved in the Microsoft Authenticator application.

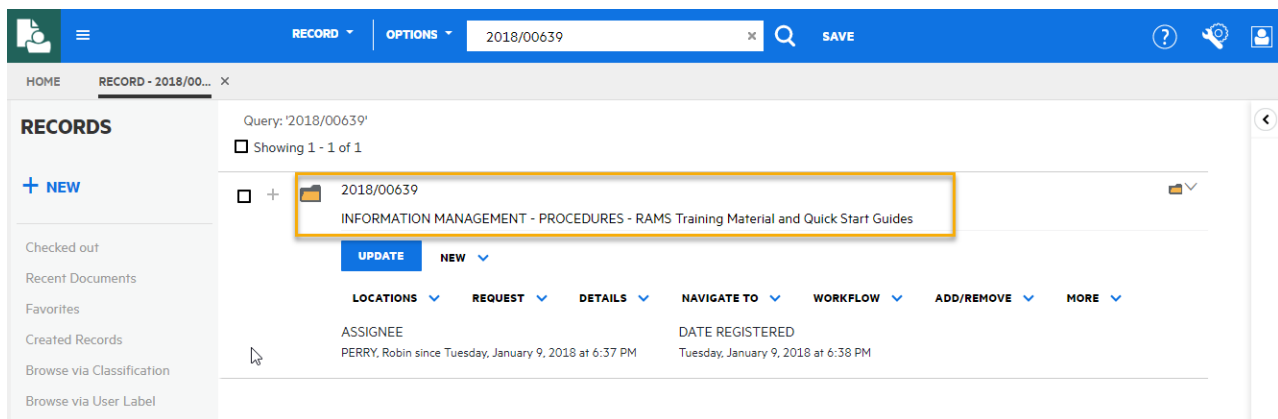

Adding Records to your Favorite Records Tray

4. Type the record number or the title in the **'Search Bar'** located at the top of the web application and hit **'Enter'** to run the search.

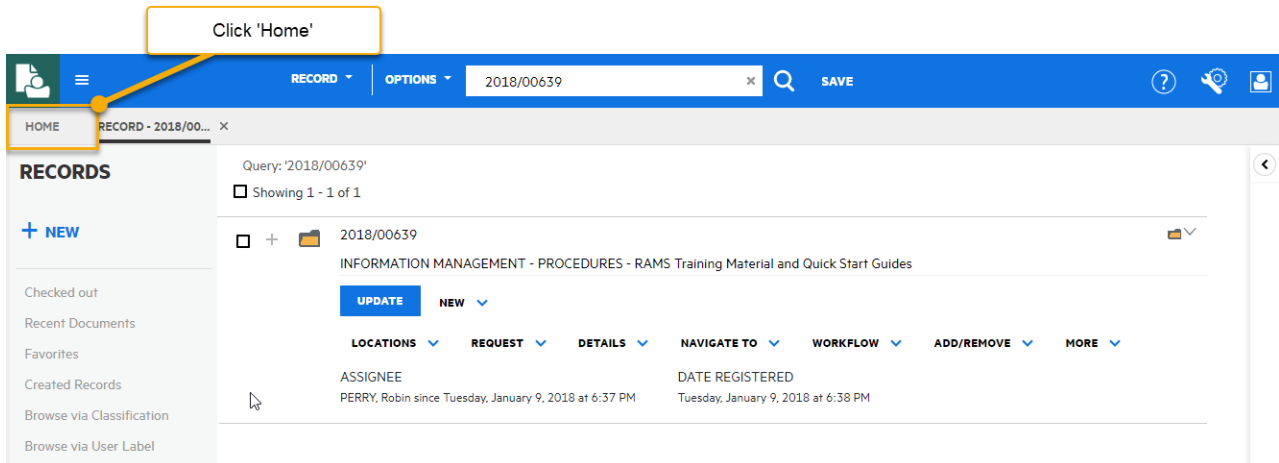

5. The container or record is displayed in the search result. If multiple results are displayed, click once on an item to select it which will open more options, as below.

6. Click the drop down in the **'Add/Remove'** section, then select **'Add to Favorites'** to add the record to the **'Favorite Records'** tray.

7. Select 'Home' to return to the home page.

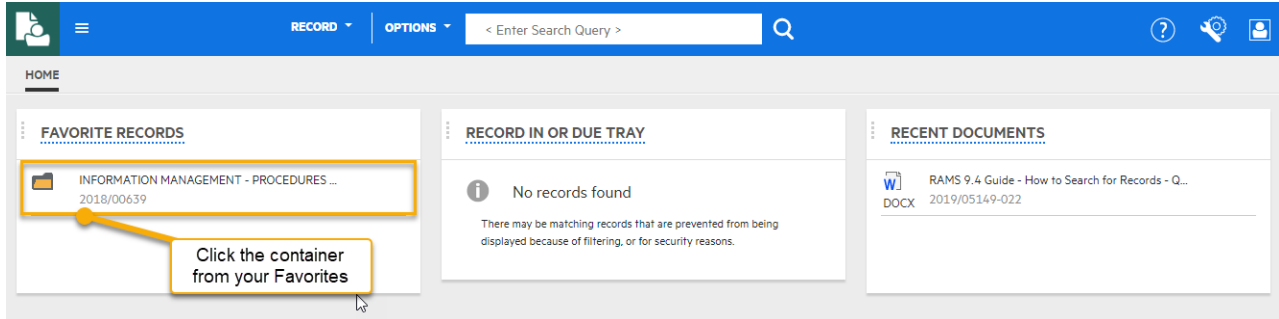

8. The selected record will appear in the 'Favorites Records' tray.

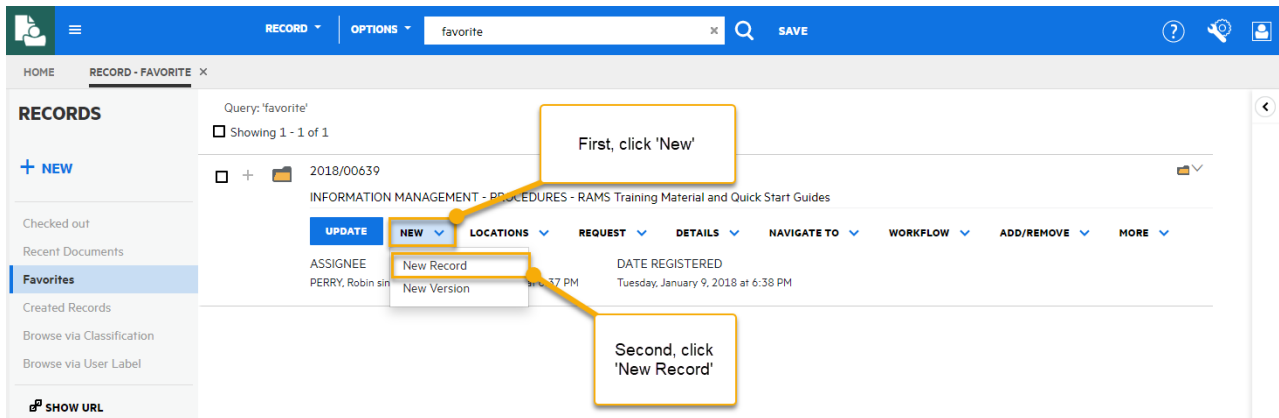

Save a Document

You can save a document into RAMS as a **New Record**.

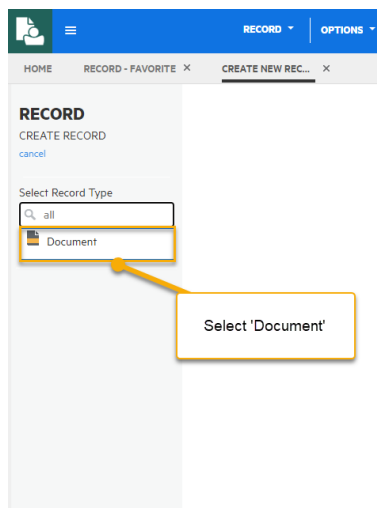

9. Click on the container located in your **'Favorites Records'** to access the available actions that can be conducted on the record.

10. To save a document as a new record into RAMS, from the list of actions under the container title select **'New'**, then **'New Record'**.

11. Select **'Document'** record type.

12. The RAMS document registration screen opens. Enter the record title in the 'Title (Free Text Part)'. Then, 'Drag & Drop' the document into the 'Attach electronic document' field.

The screenshot shows the 'NEW DOCUMENT' registration form. The 'Title (Free Text Part) (Required)' field contains the text 'Setting started with RAMS - Capturing Records with RAMS Web - August 2022'. A red error message below it reads 'A value must be entered for the field 'Title (Free Text Part)'.' The 'Attach electronic document' field is highlighted with a dashed border and contains the text 'Click here or Drag and Drop to upload files'. Below the form are 'SAVE' and 'CANCEL' buttons. Two callout boxes provide instructions: 'First, enter the document title' points to the title field, and 'Second, 'Drag & Drop' the document into this box' points to the attach field.

13. Wait for confirmation that the document has been successfully uploaded. Click 'Save' to register the record.

This close-up shows the 'Attach electronic document' field with a progress bar. The progress bar is labeled 'Process - Installing RAM...' and '245.82 KB', with a green bar at 100%. A 'REMOVE' button is next to it. Below the progress bar are 'SAVE' and 'CANCEL' buttons. Two callout boxes provide instructions: 'First, the document upload bar needs to reach 100%' points to the progress bar, and 'Second, click 'Save' to commit the record' points to the 'SAVE' button.

14. The document has been successfully saved into RAMS and given its unique ID number.

Newly registered document

Viewing a Document

16. Click the document from the **'Recent Documents'** list or type the record number in the search bar and press **'Enter'** to retrieve the record.

17. Click the **'Document'** icon to view it. The icon typically has the file extension in the picture if it's a known extension type.

The document will open in the RAMS Web Application document viewer.

18. To see previous Revisions of the document (if there are any) or to Close the document viewer, click the **x** in the top right of the Web Application screen.

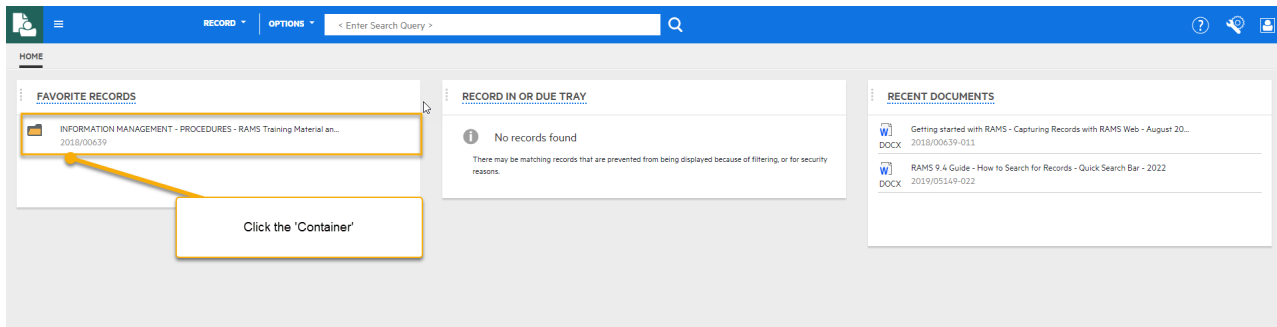

19. If you prefer to view the document in its native application, click the **'Download'** icon to download a copy to the downloads folder in Windows/Apple device.

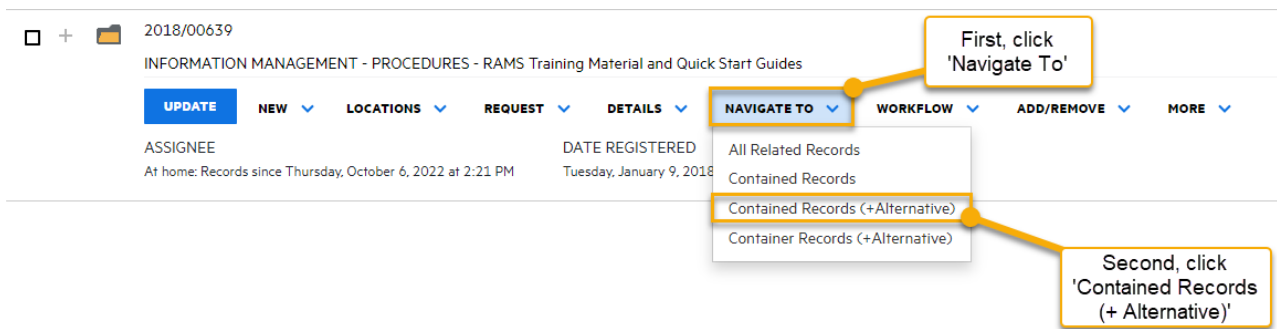

Viewing all Documents contained within a RAMS Container

20. Click on the container located in your 'Favorites Records' tray.

21. Select 'Navigate To', then 'Contained Records + Alternative'.

22. The list of documents held inside the container will display in the results screen.
